Style 1

Comfort Construction-Style (1161205)

1. **Easy-link web adapter*** enables fast and easy attachment of personal self-retracting lifelines and keeps the D-ring available for lanyards, overhead SRLs or rescue devices
2. **Fixed back D-ring** reduces the need for readjustment throughout the workday
3. **U-shaped neck** with moisture wicking padding designed to help reduce chafing and sweat buildup
4. **Softer and more robust hip pad** is 3.5x thicker for extra comfort
5. **Durable and sturdy belt** for tool bag-carrying convenience
6. **ANSI Z359.11 compliant, auto-resetting lanyard keepers** for fast and easy parking of snap hooks and carabiners
7. **Impact indicators** make it easy to inspect the harness for damage due to impact loads
8. **Protected labels** for long-term identification and inspection

Introducing the 3M™ Protecta® Leading Edge Self-Retracting Lifeline

We've expanded our product line to help meet your jobsite fall protection needs. Users are now able to tie-off at foot-level with the 20 ft., 33 ft., 50 ft., and 66 ft. 3M™ PROTECTA® Leading Edge Self-Retracting Lifelines. These products are put through extensive sharp edge testing to help ensure protection against sharp, abrasive and other leading edges found at construction sites.

How to choose the right SRL

1. Anchor location
Not all SRLs are the same. SRLs designed for anchoring at foot-level are different than those meant for overhead anchorage.

2. Lifeline material
Galvanized and stainless steel increase durability and dependability, while web is lighter for personal use.

3. Length
Select a length that will allow maximum mobility while still arresting your fall at a safe distance.

4. Hook options
A variety of hook options help you to be flexible on the job when tying off to fall arrest rated anchor points.
