

JACKSON® SAFETY

280PLFG Welding Helmet

Helmet is molded from a lightweight yet durable fiberglass material to provide the ultimate combination of safety, comfort, and productivity. Made to perform in the toughest welding conditions, features include premium ratcheting headgear and a compact design to allow easy access into tight working conditions. Comes ready to use and includes a high-impact polycarbonate window and Shade 10 filter.

Key Features and Benefits:

- Durable impact-resistant fiberglass material resists chips and cracks while withstanding high temperatures
- Super lightweight construction provides unsurpassed comfort even during extended use
- Smooth design is self-extinguishing and easily deflects sparks and spatter
- Fixed front style provides superior access even when performing in the tightest working conditions
- Patented 370 Speed Dial® ratcheting headgear achieves a perfect fit to deliver maximum safety, productivity, and satisfaction
- Fine tooth soft rubber adjuster dial delivers a precise fit without overtightening
- Patented “Qwik-Fit” real swivel headband adjusts the suspension to the user’s head for superior comfort and convenience
- Comes complete with a Z87.1+ high impact polycarbonate window and a 2" x 4.25" Shade 10 filter
- Easily converts from passive to auto-darkening with the use of a replacement drop-in ADF
