ULTRA-M 5.2 Ah BATTERY TECHNOLOGY

75% More Run Time!

- **Longest Run Time, Ever!**
- **Increased Productivity!**
- **Lightweight!**

3 Li Power years warranty

3 YEAR UNCONDITIONAL GUARANTEE ON BATTERIES. IF FOR ANY REASON THE BATTERY WILL NOT CHARGE, METABO WILL REPLACE IT. 3 YEAR WARRANTY ON TOOLS & LIFETIME WARRANTY ON BRUSHES.

It's All in the Technology!
The Ultra-M system was designed specifically for mobile industrial users, whose applications typically demand more power and longer run times.

Intelligent Battery:
The key behind the system is a microchip in the battery that effectively communicates with the tool and battery charger.

Electronic Single Cell Protection (ESCP):
The ongoing communications ensure that each battery cell is evenly charged and discharged every single time, thus greatly extending the life of the battery as well as protecting the tools being used.

Patented Air Cooled Charger:
The charger's built-in fan system quickly cools a hot battery pack as it begins the charging cycle, thus reducing overall charging time. The result is a battery that will charge 30% faster and survive more charge/discharge cycles than other batteries.

NEW!

BSA14.4-18
